

## BOATING, EXCURSIONS & FISHING

Valid 1 February 2018 through 31 March 2019.

The thirty islands of the Mamanuca group range from craggy volcanic peaks to tiny sand cays. They are surrounded by the protected waters of the Bligh lagoon. Many of the islands remain uninhabited – nesting places for turtles and birds. On others are situated traditional local villages and of course other Island Resorts. We offer a variety of ways to explore this stunning area, both above and below the water.
